As Autumn at last, cools our weather, nesting boxes should be cleaned by brush or, if water is convenient, a thorough hose-out. Needed repairs should be completed,

When Winter sets in, don't be surprised if you observe several regular visits to your nest box by two or more Bluebirds. We think that they are examining accommodations for the next season...just looking...nest building will not normally begin until March in these parts.

Next posting to this site, scheduled to resume early Spring 2012.
