	iolations cited in this report n	nust be	corrected within	the time fran	nes below, c	or as stated in	n sections 8-405.11							
4-501.114 Manual and Mechanical Warewashing Equipment, Chemical Sanitization-Temperature, pH, Concentration and Hardness - P Repeat: Quat sanitizer did not show a color change on test strips in the deli three compartment sink. The bag of quat sanitizer was empty at time of inspection. Sanitizer must be maintained at a concentration specified by the manufacturer (150 - 400 ppm). CDI: Employee changed bag of sanitizer during inspection and refilled the sink with 200 ppm quat sanitizer solution. Employees in deli must regularly use quat sanitizer test strips to maintain concentration of sanitizer and must regularly check sanitizer bags to replace empty bags when required. Sanitizer buckets in deli area were at correct concentration.
